

PAN AND TILT POSITIONERS AND CAMERA ENCLOSURES

Will-Burt United Kingdom designs, manufactures, and assembles pan and tilt positioners and camera housings. Pan and tilt positioners are available for mobile – PositionIt – and fixed applications – AccuPoint – along with multiple sizes in each range creating flexibility and options for our customers. An IP68 rating delivers dust and water protection for our maintenance-free positioners guaranteeing a long life in all weather conditions. Will-Burt PositionIt and AccuPoint positioners have a high gear ratio providing lower speeds for smooth operation with sensors and antennas. Universal mounting plates are included that are suitable for the most common payloads. Simple to install, easy to use, and lightweight construction make Will-Burt positioners a great solution across a wide range of industries.

Our all-weather environmental camera housings are made with a proven, traditional design keeping them compact yet spacious to accommodate larger camera and lens combinations. Toughened glass and stainless-steel fittings/ fastenings ensure long operational life. Two entry glands and a grommeted hole are provided for efficient cable management to secure the units' IP66 integrity.

Because of our set up, customers' specific needs can be addressed faster and more effectively than ever. We also offer a full pre-build service for customers who require a turnkey solution for their requirements. If you need additional control equipment or CCTV accessories, we will help find the best solutions for you.

POSITIONIT CONTINUOUS ROTATION PAN AND TILT POSITIONERS

for Mobile Applications

The PositionIt range of pan and tilt positioners are now available with **Continuous Rotation** panning operation. All PositionIt models include improved, next-generation control electronics and software while retaining the rugged reliability of the original PositionIt range. The updated PositionIt series is fully backwards compatible regarding connection points, electronics, and software with the previous generation. Improved motor control is assured with higher resolution speed control, slower minimum speeds, and user adjustable minimum speeds and speed ramps. The GUI for configuring and commissioning allows users to set and adjust many features that were originally factory set only. It also boasts many features such as the ability to receive positional feedback, set home position and limit stops and fault diagnostics.

- Designed, manufactured, and tested to excel in mobile applications
 - Hardened metal gears
 - MIL-STD 810 certified by independent laboratory
- Strong, lightweight construction
 - Die-cast aluminum housing
 - Stainless steel fasteners
- Regenerative Braking
 - On motor shaft
- New Graphical User Interface (GUI)
 - Greater level of control with user set features
 - Faster set-up
 - Positional feedback
- More precise than ever
 - Higher level of motor control
 - Greater positional accuracy
- Flexible Connection
 - Bottom or side
- Universal mounting plate
 - Suitable for most common payloads
- Pelco-D over RS-485 Communications
- Weather-proof
 - IP 68 Rated
- Long Operational Life
- Backwards compatible
- 2 Year warranty

HANDHELD CONTROLLER

The Pelco-D compatible handheld controller with LED screen has all of the features necessary to optimize the performance of the Positionit positioner. The precision 4D joystick controller flawlessly controls the pan and tilt functions. Includes LED screen, keyboard and programmable presets that simplify operation. The positioner handheld controller can also be optionally used in conjunction with the pan and tilt positioner controller.

Handheld Controller | Rack Mount Controller

RACK MOUNT CONTROLLER

The 19-inch [2U] Rack Mount Positioner Controller from Will-Burt is loaded with new features. You will always know the status of the positioner with real-time positional, speed, and status feedback. Control multiple positioners and third-party equipment with a single controller. This controller is optimized for positioners with stow and deploy buttons located on the front panel.

The latest Positioner Controller from Will-Burt will simplify deployment and operation of communications and video equipment.

- LCD Home Screen displays real-time positioner information
- LCD Selector Menu provides additional control functionality
- Control third-party equipment through [7] digital discrete outputs with USB and RS-485 inputs
- Control multiple positioners in single system through address selection
- Positioner control with front panel directional push buttons and configurable 'Stow' & 'Unstow' presets
- Pelco-D over RS-485 half-duplex output to positioner
- 100-240VAC input voltage with 24VDC output voltage to positioner

Input Voltage	100-240VAC

ACCUPOINT CONTINUOUS ROTATION POSITIONERS

for Static Applications

The AccuPoint Continuous Rotation range of positioners for static mount applications, maintaining everything that was great about the AccuPoint range but now with Continuous Rotation capability. The AccuPoint Continuous Rotation Range utilizes a high-quality slip ring with RG179 75 Ohm COAX compatibility. The AccuPoint Continuous Rotation positioners provide high positional accuracy and are easier to use than ever. With a greater level of motor control, your surveillance capability will be at its highest and antenna accuracy will be precise. Supplied with a simple graphic interface (GUI), it is now easier to configure allowing faster installation times and more capabilities to fulfill your specifications. Know the exact pointing location of your device with positional feedback and adjust it easily to the direction needed.

Improved motor control is assured with higher resolution speed control, slower minimum speeds, and user adjustable minimum speeds and speed ramps. The new GUI for configuring and commissioning allows users to set home positions, receive position feedback, and adjust many other features that were originally factory set standards. Rugged and robust as ever before, AccuPoint can withstand the harshest weather conditions.

Available in three sizes, all units can be configured for over-the-top or side mount operation.

- Continuous Rotation pan operation.
- High Quality slipring with 3G-SDI video transmission capability.
- Backwards compatible
- Greater level of control with user set features
- Faster setup
- Higher level of motor control and greater positional accuracy
- Positional feedback
- Rugged and robust
- Pelco D over RS485 Communications
- IP68 Rated
- 3-year warranty

ACCUPOINT OVER-THE-TOP & SIDE MOUNT POSITIONERS for Static Applications

The AccuPoint range of positioners, retaining everything that was great about the original static mounted range but now includes our improved next generation control electronics.

The AccuPoint series is dimensionally and electrically identical to the first generation of Will-Burt positioners with backwards compatible software. Improved motor control is assured with higher resolution speed control, slower minimum speeds, and user adjustable min speeds and speed amps. The new GUI for configuring and commissioning allows users to set home positions, receive position feedback, and adjust many other features that were originally factory set standards. Rugged and robust as ever before, AccuPoint can withstand the harshest weather conditions.

FAN COOLED SUNSHIELD**

MAINTENANCE FREE ALL-WEATHER ENVIRONMENTAL CAMERA HOUSINGS

Aluminum and 316 Stainless Steel Enclosures

Made to a proven, traditional design, the Mitre range of environmental camera housings are extremely compact yet spacious enough [particularly the new 903] to accommodate larger camera/lens combinations.

Broadening the range of applications to include corrosive and clean environments, Small [901] and Medium [900] aluminium cased housings cases are now available in 316 stainless steel [801 and 800].

Toughened glass and stainless steel fittings/ fastenings ensure long operational life and two entry glands and a grommetted hole are provided for efficient cable management to secure the units' IP66 integrity.

A deep base allows the fitting of an optional integral wiper which incorporates a micro switch for self-parking. Standard accessories include an extended camera plate, steel safety strap and wiring distribution block. A PTC resistor heater with progressive performance is also provided which eliminates the need for a thermostat and when the heat's on, optional double skinned sunshields are available for all models. The roomy new 903 [standard length] can even be supplied with a fan cooled sunshield which draws air through the housing to prevent overheating in extreme conditions.

- Uncompromising construction
 - Lightweight sheet aluminium or 316 stainless steel casing and tray
- New 903 series
 - Extra height and width as standard plus short and integral cooling fan versions
- Deep bottom tray
 - Suitable for housing integral wiper or accessories such as receivers or RF TX's & Rx's
- Built to last
 - Stainless steel fastenings
- Weatherproof
 - Sealed to IP rating 66
- Accessories
 - Extended paxolin camera plate and stainless steel safety strap
- PTC Resistor heater
 - Progressive performance without the need of a thermostat [available on request]
- Cable management
 - Two entry glands at 20mm and one hole at 25mm for Kopex or Adaptaflex
- Integral wiper option
 - Micro switch self parking wiper with blade toggle action

The Slowspeed system is a complete high resolution solution for users requiring a far higher degree of accuracy than is possible with a normal pan & tilt head and receiver. Delivering the capability of video tracking over long distances (dependent on lens), applications for the Slowspeed include airports and border control, harbours, vehicle embedded systems and other sensitive area surveillance.

Quick and easy to install, the receiver and housing are connected together by just nine connections (five power, two data and two video cables) and the receiver can be controlled over a daisy chained or star wired RS422/485 network. System commissioning and diagnostics are performed via a local or remotely located display.

- Long range surveillance
 - 55-60x lenses
- Ultra slow speed operation
 - Pan and tilt speeds <math><0.1^\circ/\text{sec}</math> minimum to
- Choice of supply voltage
 - Supply voltage either 110V AC or 230V AC
- Choice of auxiliary output voltage
 - Output voltage either supply voltage or 24V AC
- Easy to install
 - 9 wire connections between receiver and housing
- Exceptional accuracy
 - Revolutionary preset technology with 12 bit resolution
- Easy to set up
 - Receiver mountable at base of polex
- Wide choice of lenses
 - Compatible with lenses with iris override and x2 converters up to 60x
- Flexible
 - Supports 14 different protocols
- Active motor drive system
 - Ensures head stays on preset positions

SLOWSPEED ENVIRONMENTAL CAMERA HOUSING

A long distance stunner for sensitive area surveillance

Power supply	230VAC or 110VAC	230VAC or 110VAC	230VAC or 110VAC
Max load	5A @ 230V [1150W]	5A @ 230V [1150W]	5A @ 230V [1150W]
Receiver current draw	Maximum of 100VA max	Maximum of 100VA max	Maximum of 100VA max
Fuses	Auxiliary fuse F2 5A T [20mm ceramic cartridge]	Total max. pan/tilt/lens/24Vac auxiliary 100VA	
Outputs	Auxiliary outputs for wash/wipe/lights [1000W max]	Driven at supply voltage or 24V AC selectable by SW2	
Video input	1V to 4V p-p 75Ω impedance via BNC socket	Video launch amplifier gain locally and remotely adjustable	
Video output	Zoom and focus: adjustable between 6 - 12VDC	Inching speed: adjustable between 0-12VDC	1 second inching built in
Lens drives [remotely adjustable]	Iris output: direct drive for 3 motor lens or auto iris override voltage. In auto-iris mode output returns to preset level 15 seconds after manual iris control. Preset level is adjustable. Outputs have red/green LEDs to indicate direction and voltage		
Presets	Inputs for pan, tilt, zoom & focus preset feedback pots		
Alarm facilities	Lens 10 bit resolution: Up to 32 full scene presets: pan/tilt/zoom/focus		Head 12 bit resolution: [16 with BBV & Baxall up the coax protocols]
	8 alarm inputs from volt free normally closed contacts. Output 1 normally closed volt free contact can be set to operate immediately or when the preset is approached after an alarm input. NOTE: The output is used for iris override when using Fujinon or Pentax lens mode		
Additional facilities	Software random pan/sequential preset patrol with individual programmable preset dwell/Datum - return to preset 1, start preset patrol or random pan after menu set duration of inactivity		
Features	LED readout for continual system status		Programming menu with in-built LCD display and screen display
	12V DC/500mA un-switched output		Color coded outlets - live, neutral, earth, low voltage

Will-Burt's new Environmental Camera Housing meets the exacting specification of the UK Network Rail. The maintenance-free, all-weather camera housing is designed for general CCTV applications and is approved and certified to meet the Network Rail specification BR1682 issue C and carries the certificate number: PA05/07061.

The housing is constructed of powder-coated aluminum and is secured with external stainless-steel fittings that create a weather-proof and corrosion resistant shelter for a camera. The housing provides an impressive ingress rating of IP66.

The toughened glass window, integral thermostatically controlled heater, self-parking wiper and lightning protection circuit protects the camera and optimizes its performance. The wiring loom and internal camera mounting plate delivers maximum versatility for a variety of cameras.

This Environmental Camera Housing is designed to meet the exacting demands of the UK Network Rail and your own demanding requirements.

UK NETWORK RAIL APPROVED ENVIRONMENTAL CAMERA HOUSING

- Uncompromising construction
 - Lightweight sheet aluminium or 316 stainless steel casing and tray
